

Pet Insurance Information

Because of Boot n' Kits inability to provide adopters with veterinary assistance, we STRONGLY recommend that you purchase at least a 30 day insurance policy for your new pet. Below is some information on a policy that is geared toward newly adopted pets! As with any insurance policy, it is up to you to do your own research and make the best informed decision. We are not affiliated with any of the below insurance companies and are only recommending you that you consider purchasing a policy, from any company you feel comfortable with, for your new pet.

Congratulations on adopting a new pet!

To thank adopters for saving a life, PetFirst Healthcare has created a discounted pet insurance offer exclusive to shelters and rescues.

PetFirst's adoption insurance provides \$1,000 of accident and illness coverage for only \$5.00 the first month, and \$14.95 each month thereafter. This provides your pet with \$1,000 of accident and illness protection, which can be a safety net to help pay for any unforeseen medical expenses, rather than making the tragic decision not to treat. PetFirst reimburses 100% of veterinary bills after a \$50 deductible, and their claims department usually processes those claims within 2 weeks.

Insurance is NOT proactive from the time of adoption. It only becomes effective once you sign up

To activate the adoption insurance, visit www.petfirst.com/petfinder or call 1-877-291-PETS(7387).
